

NISSAN INTELLIGENT MOBILITY

Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that change your EV as you go along. It's all in the very near future. And it's a future already taking shape in the Nissan you drive today.

Innovation
that excites

NISSAN KICKS

OWN EVERY MOMENT

The world is in motion. Motion means change, and change drives our future with excitement. Dare to be different and seize every moment with the all-new award-winning Nissan Kicks. A crossover like no other.

EXHILARATION ON ANY ROAD

When the city calls, answer it with the most daring SUV you've ever known. With a design all its own, dynamic handling and performance, exceptional comfort and innovative technology, the Nissan Kicks puts you at the forefront to take on the bustling streets.

MAKE A BOLD STATEMENT

The striking design of the all-new Nissan Kicks will not let you go unnoticed. With a unique floating roof design, bold lines, aggressive V-motion grille and distinctive boomerang shaped LED lamps the Nissan Kicks expresses pure attitude from every angle.

SHOW THEM HOW YOU SEE THE WORLD

Anything is possible if you do things your own way. The distinctive gliding wing design of the dash gives the interior a clean, modern look.

STAY CONNECTED IN THE BEST SEAT IN THE HOUSE

Bring the beats with **crystal-clear audio** through the Nissan Kicks' 4 speakers and always stay cool with manual **air conditioning**.

Stream music straight from your smartphone with **bluetooth connectivity**. Entertainment will always be along for the ride.

Stay connected with the Bluetooth Hands-free Phone System that activates via **steering wheel-mounted controls**.

The distinctive gliding wing design of the dash and stylish, circZ ZZular vents give the **interior a clean, modern look**.

EXCEPTIONAL COMFORT

When all your friends have the night off, make the most of it. From a spacious interior that maximises room with a flat floor design, to the high degree of craftsmanship apparent in every design element, Nissan Kicks gives you, and your friends, the perfect excuse to stay out later.

STAY OPEN TO ANY SITUATION

With the second row folded down, the Nissan Kicks is open to almost any activity you can think of. From a day at the beach with friends or just a weekend escape, with this kind of flexibility, you'll always be up for it.

We designed the Nissan Kicks to be easily accessible, and highly flexible. From 60:40 split rear seats to a liftgate that opens high enough for you to stand under, it's never been easier to make the most of every day.

432 Litres of cargo space

2

Suitcases when seats are not folded

3

Golf bags when only a single seat is folded

EFFICIENCY MOVES TO THE FAST LANE

Performance and efficiency can go hand in hand, and Nissan Kicks is driving proof of it. Even with plenty get-up-and-go, the combination of an advanced engine, lightweight design, and a virtually gearless transmission means the Nissan Kicks gets the most out of every drop of fuel. Something its aerodynamic design enhances even further.

EFFICIENT ENGINE

The innovative 1.6-L engine offers smoother power delivery and better efficiency by using a special coating on the pistons to reduce friction.

LIGHTWEIGHT DESIGN

With the use of high-tensile strength steel in key areas and an all-new rear beam suspension, weight is kept down. The result? Efficiency goes up.

1.6 Litre engine

88 | **118**
kw of power | HP

D-STEP CVT

Designed for a sportier driving experience, the redesigned CVT transmission features built-in shift points that activate under heavy acceleration.

INNOVATION THAT LOOKS OUT FOR YOU

What if you had the confidence you need for every part of your drive? The Nissan Safety Shield is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

HELPS THE DRIVER TO MAINTAIN COMFORTABLE DRIVING

Even when a risk has not appeared, Nissan technologies make it easier for the driver to maintain safe driving conditions. Some of these innovations reduce the driver's burden, while others enhance visibility and awareness of the immediate surroundings at night and when parking, for example.

HELPS THE DRIVER TO RECOVER FROM DANGEROUS CONDITIONS TO SAFE DRIVING

When a risk appears, warnings and automatic countermeasures help the driver avoid it.

HELPS MINIMISE THE DAMAGE WHEN A COLLISION IS UNAVOIDABLE

In cases when a crash cannot be avoided, additional Nissan technology helps reduce injuries and damage by activating the brakes, restraining passengers, and applying other measures.

SAFETY SHIELD

In the commitment to "Real World Safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury in a wide range of circumstances. Visit www.nissanafrica.com to find out more.

REAR SEATBELTS

3-point ELR seatbelts are available for the left, right and centre seat.

AIRBAGS

Dual front, side and curtain airbags will protect the driver and passengers in the case of a front or side impact.

LED ACCENT HALOGEN HEADLIGHTS

Provide distinct projection to enhance visibility at night and in poor conditions.

BRAKE ASSIST (BA)

Senses emergency braking and automatically helps to apply maximum braking pressure if needed.

ANTI-LOCK BRAKING SYSTEM (ABS)

In the event of an emergency situation, ABS modulates the brakes to help the driver maintain stability and steering control as well as preventing the brakes from locking.

ACTIVE TRACE CONTROL.

By selectively applying Nissan Kicks' brakes when cornering, Active Trace Control can automatically engage the inner or outer brakes, helping to optimise your line through a turn.

ACTIVE RIDE CONTROL.

In the event you're jostled by a bump on the road, Nissan Kicks' Active Ride Control system becomes engaged. It works by automatically applying the brakes to help smooth out the impact, helping you stay composed and comfortable.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

Enhances braking control to optimise braking performance with loads of various weights.

Nissan's commitment to the environment

Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

NISSAN'S commitment to quality: To provide all customers with a consistently high level of quality, Nissan applies the standard worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: 1. The expectation of a smooth driving experience with complete peace-of-mind. 2. The intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. 3. The level of attentiveness and service during the sales process, and long after the sale is concluded.

NISSAN
AFTERSALES
OUR PROMISE. YOUR EXPERIENCE

AT NISSAN WE KEEP OUR PROMISES AND TAKE CARE OF OUR FAMILY

Servicing and repairing your Nissan at an authorised Nissan dealership is the way to go. Our Nissan technicians are highly trained specialists that know your Nissan better than anyone. They will use Genuine Nissan Parts, Genuine Nissan Accessories to ensure quality, reliability and to keep your vehicle performing to optimum standards. Nissan aims to keep you and your vehicle on the road with total peace of mind - for as long as possible. That is the Nissan Aftersales commitment.
