# NISSAN PATHFINDER

**NISSAN  
PATHFINDER**

NSC STAMP:

[WWW.NISSANAFRICA.COM](http://WWW.NISSANAFRICA.COM) | R52201502LHDE

**DISCOVER A NEW LEVEL OF LUXURY,  
STYLE AND COMFORT.**

## EVERY DESTINATION IS A NEW ADVENTURE

Every detail in the Nissan PATHFINDER has been designed to deliver a new level of comfort, from the premium interior through to the optimum ride. A stylish, aerodynamic exterior compliments the inviting interior which includes 7 seats with an ingenious seating system for ease of configuration like never before.

The Nissan PATHFINDER has driver-focused technologies which includes intuitive ALL MODE 4x4-i, Continuously Variable Transmission (CVT) and Tri-zone Climate Control.

Nissan PATHFINDER. Making every day driving a pleasure for all.

## NEXT-GENERATION STYLING

The Nissan PATHFINDER's exterior styling presents a smart fusion of signature Nissan styling cues which is apparent at first look and first touch of both the exterior and the interior.

From the wide chrome grille to the large rear combination lights the Nissan PATHFINDER is adventure ready. The dual panorama moonroof combines with the large windows to create an open, airy interior environment.

## COMFORT IN EVERY DETAIL

Entering Nissan PATHFINDER means experiencing true comfort. The quiet, comfortable interior includes three rows of rich leather-appointed seating surfaces\*, power tilt and telescoping steering wheel\*, Nissan Intelligent Key with Push Engine Start and an advanced BOSE® audio system with 12 speakers\* and a 2GB music server.

## OPENING UP TO A WORLD OF POSSIBILITIES

The Nissan PATHFINDER's unique versatility comes to life in the design of the 2nd and 3rd rows with exceptional 3rd row access – thanks to large rear door openings and the EZ Flex Seating System featuring innovative LATCH AND GLIDE technology. With this system you can simply tilt and slide the 2nd seat forward and get into the 3rd row of seats, no effort required.

The roomy interior isn't just tailor-made for passenger comfort, there's also 2,259 litres of cargo space when the 2nd and 3rd row seats are folded flat. Alternatively the 2nd row splits 60/40, and the 3rd 50/50, to give you numerous options for carrying both passengers and loads. For more storage options there's the under-floor storage area, that's easily accessed even when the 3rd row is upright.

**DON'T LEAVE ANYONE BEHIND**

## SMART TECHNOLOGY

### THREE INDIVIDUAL TEMPERATURES. ONE CABIN

For the complete comfort of all passengers, the Nissan PATHFINDER has three spacious cabin areas that benefit from the Tri-zone Climate Control System. A tailored climate is available to the driver, front passenger and rear passengers with strategically placed air vents right through to the 3rd row to ensure that everyone enjoys their choice of either cool or warm air.

### MUSIC ALL ROUND

The BOSE Sound System is designed for mind-blowing music quality all-round with 12 speakers, MP3, DVD, 2GB music server, USB and iPod connector.\*

\*Available on the SV model

### INTUITIVE 4WD

Controlled by a rotary dial, the ALL MODE 4x4-i system can easily be switched between 3 driving modes: 2WD, AUTO and LOCK mode.

### HILL DESCENT CONTROL (HDC)

The latest feature added to the Nissan PATHFINDER. Descend on a steep decline safely, as Hill Descent Control controls the brakes for you, letting you focus on steering and helping you maintain complete control.

### THE PERFECT VIEW

The Nissan PATHFINDER makes parking easier and safer. Fitted as standard is a rear view camera, giving you a 130-degree side-to-side view, and a 92-degree top to bottom view. With predictive path technology and distance guidelines clearly displayed, you can reverse with confidence. The Nissan PATHFINDER also has reversing sensors, which beep to let you know when you're too close to an object.

### INTELLIGENT KEY

Never take your keys out of your pocket. Just push the button and the engine starts.

## PERFORMANCE MEETS ECONOMY.

**Power, courtesy of the VQ35DE engine.** The Nissan PATHFINDER features the latest generation of Nissan's VQ series engine - the most awarded V6 engine series in history. This 3.5-litre V6 petrol engine delivers 190kW (260hp) of power and 325Nm (33kg-m) torque. The power doesn't stop there, as the Nissan PATHFINDER has a braked towing capacity of 2,268kg (5,000lbs.) resulting in effortless towing. Plus there's the multi-link rear suspension which means a smoother and more comfortable ride.

**Efficiency, brought to you by the Next-Generation Xtronic CVT.** With the Nissan PATHFINDER's Xtronic CVT<sup>®</sup> transmission, you have a virtually gearless wonder. This ensures you have a wave of power when you need it and efficient cruising for the long road.

# SAFETY

## HELPS THE DRIVER TO MAINTAIN COMFORTABLE DRIVING

Even when a risk has not appeared, Nissan technologies make it easier for the driver to maintain safe driving conditions. Some of these innovations reduce the driver's burden, while others enhance visibility and awareness of the immediate surroundings at night and when parking, for example.

## HELPS THE DRIVER TO RECOVER FROM DANGEROUS CONDITIONS TO SAFE DRIVING

When a risk appears, warnings and automatic countermeasures help the driver avoid it.

## HELPS MINIMIZE THE DAMAGE WHEN A COLLISION IS UNAVOIDABLE

In cases when a crash cannot be avoided, additional Nissan technology helps reduce injuries and damage by activating the brakes, restraining passengers, and applying other measures.

### SAFETY SHIELD

In the commitment to "Real World Safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury in a wide range of circumstances.

### REAR VIEW CAMERA

Select reverse and the 7" monitor instantly displays the view behind using the rear view camera.

### 6 SRS AIRBAGS

Dual front, dual side and dual curtain SRS airbags will protect the driver and all passengers, 3rd row included, in the event of a front or side impact.

### BRAKE ASSIST (BA)

Senses emergency braking and automatically helps to apply maximum braking pressure if needed.

### VEHICLE DYNAMIC CONTROL (VDC)

VDC automatically controls brake and engine output to enhance stability when sensors detect that the vehicle might slip sideways due to steering, braking or accelerator pedal operation.

### HILL DESCENT CONTROL (HDC)

Descend on a steep decline safely, as HDC controls the brakes for you, letting you focus on steering.

### 3-POINT SEAT BELTS

Every rear seat in the 2nd and 3rd row has a 3-point seat belt.

### SEAT BELT PRETENSIONERS

Seat belt pre-tensioners on the front seats automatically tighten the seat belts in certain frontal collisions, while load limiters are designed to give a little to absorb the belt force load transmitted to the front occupants.

### ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

Enhances braking control, to optimise braking performance with loads of various weights.

### ISOFIX

ISOFIX is an international standardized fitting system, and is intended to make fitting child seats quick and simple.

### ANTI-LOCK BRAKING SYSTEM (ABS)

In the event of an emergency situation, ABS ensures maximum brake force is applied and maintains control by preventing wheel lock-up.

### TRACTION CONTROL SYSTEM (TCS)

To help prevent wheel slip on low friction surfaces, TCS responds by reducing throttle or applying brake pressure to help improve traction.

**Nissan's commitment to the environment**  
Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

**Nissan's commitment to quality:** to provide all customers with a consistently high level of quality, Nissan applies the standard worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: 1. The expectation of a smooth driving experience with complete peace of mind. 2. The intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. 3. The level of attentiveness and service during the sales process, and long after the sale is concluded.
